December, 2019 Report  
Contribution Hours: 5.5 hours

- *Executive Accountability Committee: 1.5 hours*
- *General Assembly: 4 hours*

December was a very busy month, and I did not meet the hours I would have liked to! Stay tuned for January, where I look forward to catching up with many new events and initiatives!

### **Executive Accountability Committee**

In December, we had our meeting with our internal committee which acts to ensure transparency and action from our ULSU executive. We went over, and created a survey that was sent out to the GA about how they felt the year was going. The survey took about 20 minutes to complete, and we will be going over the results early in January.

### **General Assembly**

This General Assembly was a very full one! We approve money for computers so that there can be some upgrades within the office! We saw some great proposals, and heard about Maya's upcoming event to have an Indigenous speaker that I am very excited to see in March. We also started to process to approve LCB, and allow the Afterwards we did a secret Santa within the council and it was great to have time to bond and get to chat with each other to continue to create an inclusive culture!
