January, 2019 Report
Contribution Hours for January: 17
Total Contribution Hours: 47

Executive Accountability Committee (1 hr)

The EAC reconvened after the winter break to assess the feedback provided by the GA during the break. We discussed the findings and then relayed the personalized findings to each exec member. I had the pleasure of going over Jordan Miles' results with Jordan himself, it was a very productive meeting.

Strategic Planning Committee (1 hr)

The SPC met to discuss the final goals and objectives of our strategic plan. We will be fleshing these concepts out and then will be putting them to a vote at one of our final General Assembly meetings this semester. I am very much looking forward to having a completed piece of work to guide future generations of the ULSU.

Meet the GA Day (8 hrs)

Thanks to one Holly Kletke (Current Fine Arts Representative) for putting on this event, it was an absolute success and was a great grassroots opportunity to inform students about what our organization does. I was able to attend this event and speak directly to students about my role as DSB representative and the overall advocacy work the SU does.

Budget Consultation Session (1.5 hrs)

The President's Office facilitated many consultations with groups on campus to facilitate feedback and ideas. I attended the student session

and provided and listened to vigorous feedback from fellow students. The team seemed very receptive of these suggestions and comments.

DSB Stock Trading Simulation Night (2 hrs)

I attended the DSB Stock Trading Night in the Markin Trading Room as a guest on behalf of Housing Services at the University of Lethbridge. I got the opportunity to network with DSB students while trying my luck at the RIT simulation.

Club Rush Week (2 hrs)

During Club Rush Week I tabled with the ULSU table representing our organization, informing students as to what the ULSU does for the school and specifically clubs. We also got volunteers to sign up and handed out swag.

Agility Advisory Council (1.5 hrs)

On the Agility Advisory Council, we discussed a Food for Thought application and various upcoming events for Agility in the spring semester. It's looking like the Innovation Zone will soon have 24-hour swipe access available for approved students.

Thank you for taking the time to read my report. I greatly appreciate your interest in it. If you have any additional or specific questions about my roles or any of the meetings I have attended, please don't hesitate to reach out to me!
