

May 2023

Overview

This month has been filled with lots of activity. There was time devoted to learning more in depth about this role, as well as learning more about all of the external stakeholders we collaborate with. On top of entering the position on May 1st, I also had the opportunity to travel to Canmore in order to collaborate with peers from across the province and engage in provincial advocacy work with the Council of Alberta University Students. Additionally, I had the opportunity to travel to Ottawa for the Foundations Week for the Canadian Alliance of Student Associations, which is the federal advocacy body we are a part of.

May served as great opportunity to lay the groundwork and begin establishing lasting relationships for the upcoming year.
