November, 2019 Report
Contribution Hours for November: 12
Total Contribution Hours: 25

- General Faculties Council, Nov 4th (1.5hrs)
- Agility Council Meeting, Nov 18th (1.5hrs)
- Innovation Zone Training/Tutorial, Nov 22nd (4 hrs)
- General Assembly Team Bonding, Nov 22nd (3hrs)
- Strategic Planning Committee, December 2nd (2hrs)

General Faculties Council

I attended the Nov 4th GFC meeting at which we discussed the provincial budget and the implications it has for our post-secondary institution. The other item we discussed was the adoption of Chicago Principles and in what way our university is adapting them. Lastly, there was an omnibus motion to amend the academic calendar for consistencies sake.

Agility Council Meeting

I attended the Nov 18th Agility Council Meeting at which we discussed the application process and possible revisions to the Agility Food for Thought Grant Application. In addition to this I received a tour of all the equipment and spaces available in the facility.

Innovation Zone Training/Tutorial

I received a training for the 3D printers in the Innovation Zone on the 22nd of November. I am grateful to have gotten a very hands-on utilization of the space. I believe this is an awesome space for any student, but I really look forward to targeting management students to use this space for creative entrepreneurial efforts.

General Assembly Team Bonding

On the 22nd of November, some General Assembly members got together to play board games and enjoy some lovely catering from the Zoo.

Afterwards we headed to Holiday Bowl to do some bowling and christened our new team name as the “Speed Strikers”.

Strategic Planning Committee

We had a very productive Strategic Planning meeting where we outlined the final list of objectives that we want to bring to the General Assembly. We will be working on the key performance indicators and goals after the winter break.
