LOOKING BACK

Goals I've accomplished:

- Volunteered for Fresh Fest
- Became chair of the Arts & Science Executive Council

People I've worked with:

- Arts & Science Executive Council
- Fresh Fest committee

Meetings & activities attended, people I've spoken with:

- Arts & Science Council
- Arts & Science Executive Council
- September GA Meeting
- Tabling for Fresh Fest

Tactics on how I promoted SU events:

- Tabling for Fresh Fest: Spoke with students about the events and encouraged them to attend

Challenges I've encountered:

- I had been very busy the past summer and became even busier once school began again. It's been challenging to manage my schedule, but I am making it all work!

How my work has impacted students in my constituency

- Students had a very good time at fresh fest and it was a great way to engage new and old students now that classes have resumed in person.

Details on outcomes:

- There were less people that attended fresh fest than we would have liked, but that is alright.
- Students may have been less engaged as classes have been online, for the most part, for the past two years.

Have read council reports:

- I plan to read the EC reports prior to the next GA meeting so I am prepared and aware of the ongoing things the SU is involved in.

CURRENTLY

Goals I'm pursuing:

- I'd like to volunteer at more SU events, and am doing so this week at Mental Health Week
- I would like to organize a "Wellness Wednesday" and will float this idea by at the next GA meeting

Projects I'm working on:

- Wellness Wednesdays

Things I'm helping other people with:

- Mental Health Week, handing out snacks

MOVING FORWARD

Upcoming activities

- Arts and Science Council
- Arts & Science Executive Council
- October GA Meeting
- Volunteering for Mental Health Week
