

COUNCIL REPORT

UNIVERSITY OF LETHBRIDGE STUDENTS' UNION - ULSU.CA

Karo Doro	Arts & Science Rep	09/2022	26
-----------	--------------------	---------	----

LOOKING BACK

Goals I've accomplished:	<ul style="list-style-type: none"> - Volunteered for Fresh Fest (18 hours over a three day period for event(s) set up/tear down leading up to Fresh Fest Weekend) - Co-Chair of EAC with Maleeka Thomas - Volunteering for two events held during Mental Health Week (8 hours)
People I've worked with:	<ul style="list-style-type: none"> - Arts & Science Executive Council - Fresh Fest Committee - Sexual and Gender Based Violence Prevention Committee
Meetings I've prepared for: <i>(eg: Planning Committee meeting – read 50 page agenda & asked questions prior to the meeting so I would have well thought out ideas)</i>	<ul style="list-style-type: none"> - GA meeting (read over the agenda prior to attendance) - Curriculum Committee (though unable to attend due to time conflict, read the committee's package in preparation for first meeting).
Meetings & activities attended, people I've spoken with:	<ul style="list-style-type: none"> - GA meeting - Sexual and Gender based Violence Prevention Consultation for the Revision at the University of Lethbridge meeting.
Tactics on how I promoted SU events: <i>(eg: created & hung a huge banner in the atrium)</i>	<ul style="list-style-type: none"> - Often talking to individuals who are not aware of the resources the SU offers and telling them how to access it, while also promoting events that were in effect for a certain week.
Challenges I've encountered: <i>(eg: people won't get back to me when I leave them a message)</i>	<ul style="list-style-type: none"> - It is difficult to get a response from certain VPs
How my work has impacted students in my constituency <i>(eg: students are enjoying the lounge area we restored and are making new friends).</i>	<ul style="list-style-type: none"> - Having events held in the science building most especially has allowed science students to be aware of inclusionary (and destressing) events that often do not feel accessible to them. - The majority of events I have volunteered for has given me a channel to first years and second years whom have never had a campus experience that I did not expect. They are very receptive and open to wanting to be involved in events where they can garner a sense of community.
Details on outcomes: <i>(eg: only 50 people attended my workshop, but they had a great time & learned a lot... give more details though.)</i>	<p>The events I volunteered for amassed large crowds:</p> <ul style="list-style-type: none"> - Fresh Fest (the most memorable event I participated in was the drag show and there were well over 60 people in attendance, so much so that students had to watch from the zoo because there was no more space in the extending room) - Mental Health Week: the snack tables were a way to interact with students even in passing or as they made themselves a cup of coffee which I believe

students found most refreshing, and for most of them, being their first meal, seemed very perceptive and open to conversing.

Have read council reports:
(eg: I've read everyone's council report and EC minutes so I'm well informed & a team player).

- I am quite up to date on council reports and minutes and as of yet, there are no discrepancies or issues that I have felt the need to address.

CURRENTLY

Goals I'm pursuing:
(list your goals no matter how insignificant they may seem, even if it's just to keep up with regular duties).

- To genuinely make an effort in getting to know each individual at the office and of various councils.
- To be open minded despite differing views, but also not being afraid to speak my mind.

Projects I'm working on:
(name your projects with pertinent details & possible timeline of completion)

- Paint and Sip Night: this would correlate to arts and science major in which it would be a time to decompress and regenerate their mental health. Subsequent to a survey asking students of their major and year of study, the first half of the night would be a time to paint with friends and chat, but the other half would have a 1st year paired up with a 3rd year for instance within their major or as similar as possible. This would promote not only a potential mentorship, but give genuine advice of what courses to take, when to do what, and other things pertaining to their major. I believe it is much easier hearing things/ getting advice from someone who has done this before because one does not feel so alone on campus as a first year.

Things I'm helping other people with:
(please list the things you are helping others with and your duties).

- EAC w/ Maleeka: our first official meeting is approaching, however not everything is finalized quite yet in terms of roles, but the objective is to hold council members responsible for their time, their actions, and their decision, as a way to foster honest, genuine, and actionable choices within the SU.

MOVING FORWARD

Upcoming activities
(please list the upcoming activities you will be participating in).

TBA

Important dates/deadlines
(please list the important deadlines related to your goals or position).

TBA

Details on upcoming tasks
(please give details on upcoming tasks you will need to perform).

TBA

People I will need to work with
(please list the people you will need to be working with and why).

TBA

Resources I might need to gather
(please list the resources or materials you will need to gather for your tasks).

TBA
