Highlights and Reflection on monthly activity

(Information of note, what went well, what did not)

The meeting with the Dean's faculty was amazing as it broke the barrier between professors versus students and it felt like everyone on equal footing.

Helping out with Fresh Fest activities and move in day was great as it pushed me out of my comfort zone a bit as I interacted with individuals of all ages and was not a bit scared at being silly and talking to new people.

Projects in Progress

(Projects that I am currently working on, who I am working with, what resources do I require?)

Working with other Arts and Science Reps on a 'Meet and Greet' Event for first week of November that will provide students the chance to interact with us and share with us their thoughts and ideas as well as with their faculty members in a non-formal way.

Possible help that will be needed will be food but that is still being worked out on exactly what food will be provided. Other tools and resources are easily found in SU office and will be easy to get.

Completed Projects

(Projects that I have completed, what went well, what did not, and why)

Nothing to Report

Challenges I've encountered:

(eg: I can't get volunteers, not enough funding, the equipment didn't work properly, etc.).

A big challenge this month that I experienced was finding time to be creative with ideas amidst my classes and exams. Finding the time to think of initiatives so that I can better serve my students that I represent.

Goals I've accomplished this month:

(kept up with regular duties &/or accomplished additional goals)

I was able to participate in more SU activities which allowed me to interact with students more and meet new people.

Attended all my meetings on time which was a worry for me with school and classes.

MOVING FORWARD

Current or upcoming tasks:

(upcoming activities or tasks I will be participating in or spearheading, possible timeline of completion, who will I be working with).

Will be spearheading a student versus faculty for arts & science in early November that will be like a game show tonight. It would be a way for students and faculty to interact with each other in a setting that is familial and not as formal.

Going forward, I want to do mic segments where along with others we would interact with students in the hallways and ask them questions that can be fun or informational.

Goals for next month:

(What I would like to accomplish next month as a ULSU representative)

In October, I would like to have an event or two along with my other GA members that is focussed on the student body and hearing from them and letting them know who we are as SU GA members.

Important dates/deadlines:

(important deadlines related to my goals or position).

An important deadline that we are looking into is possibly having our game show night on November 6th but that date is still up to debate.
