CURRENTLY

Projects I'm working on:

Kids Cancer Care – I am working diligently to find ways that this organization can make an impact on students. I am also investigating the possibility of offering Kids Cancer Care as a volunteer resource for University of Lethbridge students.

EDIA Committee – I am beginning to get start on chairing the EDIA Committee. This will look like impacting policy after solidifying the team in place.

Mentorship Project – I am currently developing one of the most innovative strategic mentorships plans in the country. Currently piloting in the nursing program, this program will eventually expand to oversee all of health sciences.

Connecting with RBC – I will be connecting with RBC on campus to see how this group can provide educational services for University of Lethbridge Students.

AAMN Conference Podium Presentation - October 18th-21st

- I will be completing a podium presentation in New Orleans from October 18th-21st. This will be a large opportunity to spread the plans related to mentorship to other academic institutions, but all receive critique from other international groups.
